

Environmental Labelling of Packaging

The Decree law no. 116 of 2020 valid since 26 September 2020 - amends Legislative Decree 152/2006 by transposing the European directives on EU waste 2018/851 and on packaging and packaging waste 2018/852. This decree introduced an important novelty to the Environmental Code, such as the obligation of environmental labelling for materials.

PMG S.p.A. operates in the B2B market of the rubber sector, not being a packaging manufacturer, in order to comply with the provisions of the law, it has identified for the different packages of the compounds produced, the different types of packaging used, indicating the relative codes to facilitate disposal, namely:

TYPE OF PACKAGING
CONTINUOUS STRIP
SHEETS
ROLLS – PRE-CUTTED ROLLS
ENDLESS SHEET - PINPOINTED
ENDLESS SHEET
COILS
EXTRUDED
GRANULATED

PACKAGING USED	MATERIAL	CODE
Cardboard corners	Paper	PAP 20
Paper Label	Paper	PAP 22
Cardboard Interlayers	Paper	PAP 20
Cardboard Box (various sizes)	Paper	PAP 20
Pallets/Wooden boxes	Wood	FOR 50
Pallets/ Fumigated Wood boxes	Wood	FOR 50
Metal Box	Metals	FE 40
Wiring Ties for Granulate	Plastics	PA 66
Shrinkable Plastic Film	Plastics	LDPE 4
Adhesive tape	Plastics	PVC 3
Plastic Pallets	Plastics	PVC 3
Plastic Spools x Reels	Plastics	PP5
Plastic spools x Extruded	Plastics	PVC 3
Embossed cellophane roll	Plastics	LDPE 4
Cellophane Bag/Sheet/Roll	Plastics	LDPE 4
